OUR VISION

Press Coin is a deflationary, fully audited and community-driven BEP-20 token built on the Binance Smart Chain (BSC). It was launched on May 27th 2021. Two functions occur during each trade: %5 Destrution and %5 LP.

True reporting involves exposing events cautiously, keeping track of the powerful ones as well, and questioning ideas, sources, or arguments. At the same time, offering new alternatives and sticking to the belief that nothing is not as it should be; using magnation to build up hopes.

The investment we receive from PRESS supporters is not just for today! The reconstruction encourages future generations to listen to problems and support them to create a new world. We will be forever supporters of free journalists! We will support those who speak the truth, not just those who speak.

Donations made to the Press Coin (PRESS) donation address will be given to a free journalist, according to result of monthly surveys.

FEATURES OF PRESS COIN AND OUR TEAM

BIG AND STRONG TEAM

Our team currently consists of 5 people: CEO, marketing specialist, graphic designer, software developer and community manager.

TRANSPARENCY

We never leave the questions posed to us in our communities and social media accounts unanswered.

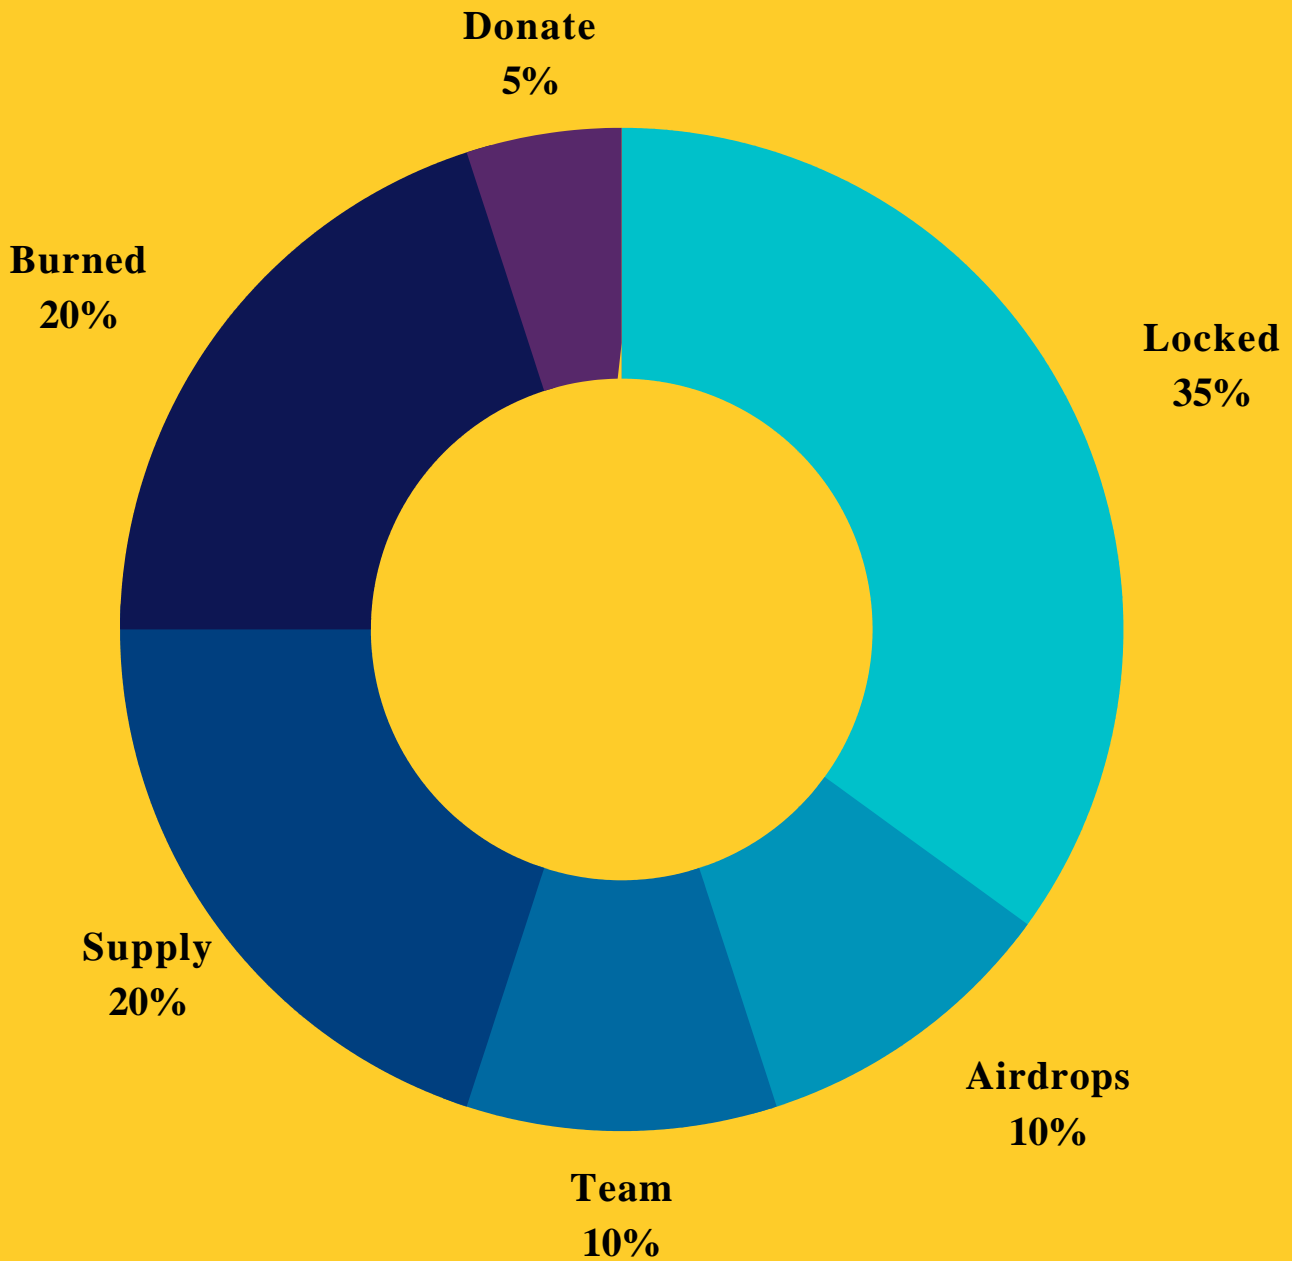

PRESS COIN PROTOCOL

During each trade, two simple functions occur: redistribution and LP. In each trade, the transaction is taxed a 10% fee, which is split in two ways: 5% redistribution and 5% LP.

ADVERTISING AVANTAGE

Donations to be made every month are made to members of the press or independent journalists societies. That's why PRESS is constantly growing.

PRESS COIN TOKENOMICS

WHAT DOES THE ABOVE TOKENOMICS MEAN?

The red string but on amount depends upon the volume of the token being traded. This is done with the aim to prevent a downwards sell pressure that could be caused by early buyers who have gotten a higher return on investment.

This mechanism also encourages holders to keep their tokens in their wallet by providing a reward amount dependant on the total tokens held by the wallet owner.

PRESS COIN (PRESS) WORKING PRINCIPLE

PRESS COIN HAS SEVERAL PRINCIPLES. THESE ARE COMMUNITY, RIGHT DONATIONS, MARKETING, ANNOUNCEMENTS AND GROWTH.

First of all, we work harder than anything to retain our community and care about the satisfaction.

Donating to the right places is a powerful factor to nurture us strategically. That's why we attach great importance to donating to major institutions identified by our community.

Our teammates, who are experienced in marketing, always determine new strategies and draw up an up-to-date roadmap.

It's our biggest responsibility to keep our communities up-to-date, so we're constantly posting beautiful designs and up-to-date announcements.

It's very difficult to grow in a medium where there are thousands of crypto money projects. We strive to grow forever, doing our best every time.
